INFINITE SCALE DESIGN GROUP'S EVENT PORTFOLIO SPARKED AN ECO INITIATIVE AND A NEW DIVISION – RESCALE DESIGN.

Clients asked us what they could do with their event vinyls and fabrics which can only be used once because of specific dates or seasonal graphics (e.g. Playoffs, All-Star Games or College Bowl Games).

So, we created an opportunity for them to repurpose these materials into relevant and stylized products to be used as charity auction items, sponsor gifts or merchandise.

RESCALE PRODUCTS

Rescale offers two product lines – the vinyl collection and the fabric collection. Each collection includes a variety of products, made in the USA, that function everyday with a unique twist.

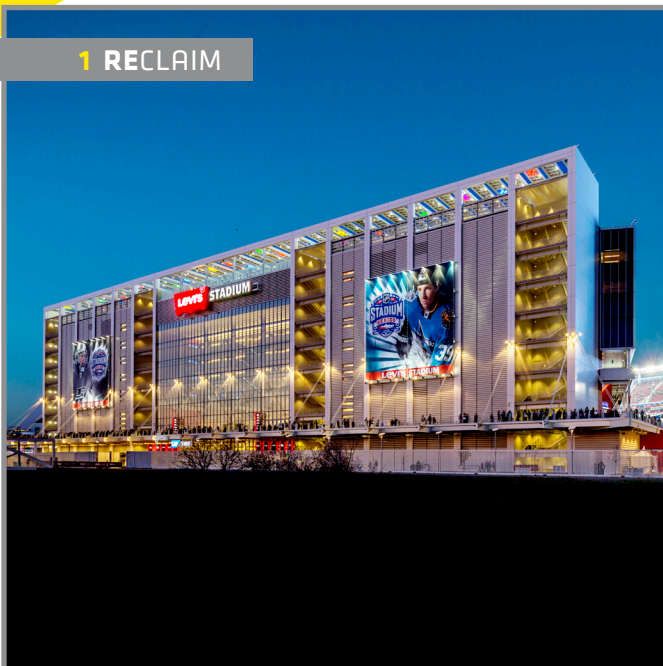

The materials from which they are made tell the story the recipient is somehow connected to. They represent an experience that can't be replicated, which makes them one-of-a-kind.

GETTING STARTED

The Rescale Design Getting Started Worksheet will help you gather all of the information needed to compile an estimate. Fill it out to the best of your knowledge or with the help of a Rescale representative. We will assist with product selections and then develop a custom estimate.
